

LEGISLATURE FACES A ROAD DEADLOCK

THE PRESENT SESSION MAY END
WITHOUT DEFINITE ACTION

MAY INVOKE INITIATIVE

Rural Communities Have Most to Lose
If Measure Fails to Pass, Say
Hard Roads Advocates

Jefferson City, July 25.—It was stated among both senate and house leaders Saturday that the present special session will end in a block over road legislation. The house must recede from several important provisions of the gravel road bill passed or the session will adjourn without enacting a road law, the leaders declared. That the house bill cannot be passed when taken up early this week by the senate is the unanimous opinion of the upper body.

Plans already are being discussed among hard road advocates for enacting a road law by the initiative. A comprehensive state-wide hard-surface road proposal to the people at the election in November, 1922, is believed, by many to be the only hope of legislation on the \$60,000,000 state road bond issue. The initiative plan would give the state 3,500 miles of hard roads, reaching approximately 75 per cent of the population, and hard-surfaced roads advocates of the greater towns point out that rural communities have most to lose should the enactment of the road law fail.

Some senators, including Ralph, chairman of the committee, have indicated the house bill would be killed in the committee. Others hold that the house measure should be amended to furnish a basis of compromise with the bodies.

The house body approved an additional appropriation of \$50,000 for the public service commission to provide for its clerical force. This provision was stricken from the biennial appropriations measure at the regular session. The state tax commission appropriation was cut from \$177,000 to \$40,000 by the house today.

The senate measure giving Jackson county (Kansas City) a grand jury selection system by which jurors will be chosen from a specially prepared jury wheel, was passed by the house. It now goes for the governor's signature. The bill provides that the names of 600 persons qualified for grand jury service shall be placed in a wheel from which drawings will be made for obtaining a jury.

The house has passed the Ferguson bill authorizing the state highway commission, upon consent of the governor, to condemn property containing road building materials or factories manufacturing such materials for construction of the state road system.

Other measures passed by the lower body:

Authorizing special road districts.

Increasing compensation for putting up road signs from \$1 to \$2.

Transferring the appropriation for eleemosynary institutions made by the last session to the board of managers of these institutions.

NODAWAY APPLICANTS FOR CAMP PIKE ARE REJECTED

Of 4,714 Applications Made in Three
States for Citizens' Training Camp
Only 1,234 Approved.

Young men from Nodaway county who were late in making their application for training at the Citizen's Military Training Camp at Camp Pike, have been rejected because the appropriation for this year limited the number who can be sent to training camp this summer. Up to July 20, there were 4,714 formal applications made and a total number of 1,234 applications approved. Only this number of men could be accommodated this year with the appropriation that was provided by Congress.

Of the 4,714 applications to the training camp there were 55 applications on file for men with prior service; there were 15 colored men and one Chinese application on file. There were 182 rejected applications and 36 other applications rejected or withdrawn.

Below are the results by states and the status of application as regards the approved, the alternated, those postponed and the rejections:

TRAVELER PRAISES ITASCA PARK ROUTE

HAS DELIGHTFUL TRIP OVER
MARYVILLE NEW HIGHWAY

FAVORS GRAVEL ROADS

Will Mean Year-Round Way To Market for the Farmer, Says
H. L. Raines.

Tourists who have traveled over the proposed Itasca Park Highway come into Maryville full of enthusiasm for the highway and bring only good reports of the conditions which already exist over this trail.

H. J. Fritz, manager of the St. Joseph Optical Company, who passed through Maryville this morning, said: "It is simply wonderful." He then went on to explain the trouble he had last year when he made a trip north over the Jefferson Highway and became so disgusted with the trouble he had following the trail and being pulled out of the mud that he determined to discard pleasure trips by car.

This year he tried it again, going from St. Joseph to Wilmar over the Itasca Park Highway. He found the trip such a pleasure that he came back through Maryville a strong booster for the proposed trail.

He especially mentioned the good markings from Maryville to Carroll which made it almost impossible to miss the trail. From Carroll north, it is gravel road and Mr. Fritz repeated, "it is simply wonderful." One stretch of road which he enjoyed most of all was about forty miles long. "All you had to do was to step on the accelerator and hold the car in the road," he said.

Mr. Fritz and his family spent one night in Sac City, Iowa, while a heavy rain was falling. They thought they would be mud-bound for several days, but by 8 o'clock the next morning they started again over the highway and had no trouble all day.

Mr. Fritz is a strong advocate of gravel highways for Missouri. He had a long talk this morning with H. L. Raines, and the latter also declared in favor of gravel roads.

"While I am working for the gravel roads to bring more tourists through Nodaway county," he said, "I am more interested in them because they will give the farmers of this community a 365-day-a-year road, over which they could bring their products to market without getting stuck in the mud."

Farm Bureau, Farm Clubs, and Farmers Union, Join in Planning Fall Festival.

The three main farmers' organizations of the County, the Farm Bureau, the Farm Clubs, and the Farmers' Union, will join in a big farmers picnic to be held in the College Park, at Maryville on Thursday and Friday, August 25 and 26. Representatives of the three organizations met Saturday with R. A. Kinnaird, county farm agent, to make plans for the festival.

The principal feature of the picnic will be a basket dinner on both days. The mornings will be devoted to conferences, field work and educational work along agricultural lines. On both afternoons, there will be a baseball game and addresses by nationally known agricultural leaders.

Invitations to speak to the farmers have been extended to J. R. Howard, president of the National Farm Bureau Federation; C. H. Gustafson, president of the United States Grain Growers, Inc.; William Hirth, editor of the Missouri Farmer at Columbia; and Charles H. Watts, manager of the Farmers Union livestock commission companies at Omaha, St. Joseph, and Kansas City. It is hoped to have additional speakers furnished by the agricultural extension service of the University of Missouri.

One morning probably will be a field day for a trip over the College experiment station, on which will be shown the results of ten years of work on different varieties of corn, oats, wheat, barley, soybeans and cowpeas, different methods of cultivating corn and fertilizer treatments on corn, oats, wheat and clover.

COURT SENDS BOY TO REFORM SCHOOL

GEORGE ALEY, 16, SENTENCED TO
TWO-YEAR TERM

DEMPSEY'S BOND FIXED

Preliminary Hearing on Bad Check
Charge is Set for
August 4.

George Aley, the 16-year-old son of Robert Aley was sentenced to two years in the Missouri State Reform School at Booneville this afternoon by Judge Dawson, sitting at juvenile judge. The charge was petit larceny. Aley was arrested Saturday evening for taking \$5 from the home of Ed Wallace.

William Sawyers, acting as attorney for the boy, said that Aley had confessed to him the taking of several other sums of money from different places and asked the court to be lenient because of the parents. But Prosecuting Attorney Charles McCaffrey insisted that because he had been guilty of several similar offenses, "measures must be taken to put an end to the larceny committed by the boys of this community."

Mr. McCaffrey then mentioned seven other thefts of which he knew that Aley had been guilty. He had taken a dollar bill from the home of W. A. Townsend, \$1.60 from F. P. Reuillard's bakery; \$2.50 at one time and \$4.50 at another time from the home of Mrs. Louella Landfater; \$5.36 from Edward Wallace's home and \$7 from the home of Mrs. W. T. Hornback.

Saturday evening was the time of the theft for which he was arrested. He took \$5 from Edward Wallace's home. The seven instances of which Mr. McCaffrey spoke had taken place since last December.

Harry Dempsey, charged with obtaining money under false pretenses by writing bad checks, was arraigned before Justice W. L. Johnson at 2 o'clock this afternoon. His preliminary hearing was set for August 4, with bond set at \$1,000.

TRAIN LOAD OF HOGS AND CATTLE PERISH IN WRECK

Three of Train Crew Die When Burlington Freight Plunges Into Missouri River.

Kansas City, July 25.—Three men are dead and a part of their train, ten cars and the engine, lay in the bottom of the Missouri River today, five miles north of here, before daylight this morning. The freight was an extra on the Burlington road and carried sixty-four cattle cars for Kansas City stock yards. Seven of the ten cars are completely submerged, as is the engine.

The recent high waters which undermined the tracks are said to be the cause of the accident. The cattle were all lost.

Kansas City, July 25.—Thirty-eight carloads of bonds to the amount of \$24,000 for the purpose of constructing a system of water works and levying an annual tax sufficient to pay the interest on the bonds and constituting a sinking fund.

A mass meeting will be held at Royal Hall at 8:30 o'clock tonight for the purpose of explaining the proposed water works system. A representative of the E. T. Archer Co., will be present to explain the project.

The officials for the election are as follows:

First Ward: Reubin Barrett.

Second Ward: E. R. Strickler.

First Ward: Stratford Saunders.

Second Ward: Wm. Bodle.

First Ward: David White.

Second Ward: E. D. French.

First Ward: James Gibbs.

Second Ward: C. E. Olson.

Burlington Junction will also have a meeting tonight at which estimates on a water and sewage disposal system for that town, with its approximate cost, will be given the city council by an engineer from Omaha. If the improvement as outlined tonight seems feasible a mass meeting will probably be called a little later on for a general discussion of the subject by citizens of the town. Then if the sentiment expressed at that meeting is favorable, the council will call an election for the issuance of bonds to finance the improvement.

The advocates of installing a water and sewage disposal system urge that the slight tax necessary to float the bond issue will be more than offset by the lowering of insurance rates in the town.

LARGEST CIRCULATION IN NODAWAY COUNTY

THINGS WHICH ARE MAKING MISSOURI GREATEST STATE.

How many persons know that Missouri is a state of great resources; that its soils, its mines, its water supply, its fuel supply, its transportation facilities, its large production of raw materials and its central location in the Mississippi Valley offer exceptional opportunities for the farmer, the manufacturer and the man engaged in commerce; and that the position which the state occupies with reference to the North, East, South and West, insures a great commercial development?

With these facts in view, Missouri can be placed in a class of the foremost states of the Union in many things. Some of these are as follows:

Missouri furnished the two most noted American military leaders of the war. Gen. John J. Pershing, commander-in-chief of the American Army, and Gen. Enoch Crowder, who planned and managed the draft.

Missouri's war record in food production was remarkable, the total value of her food crop in 1918 being more than double that of 1916.

Missouri ranks first in poultry, mules, bluegrass, diversified farming, purchased Hereford cattle and in a number of crops and fruits.

Missouri led all other states in the combined production of corn and wheat in 1919—America's greatest grain crops.

The State Historical Society of Missouri stands first in membership among the State Historical Societies west of the Allegheny mountains.

Missouri ranks first in the production of lead and zinc.

Missouri has more state banks than any state in the Union. Savings deposits in her state banks increased from \$51,509,217.09 in 1916 to \$91,537,114.95 in 1920.

Missouri is the only state in the Union that has two Federal Reserve Banks. She also has a Farm Loan Bank.

Missouri has the largest artificial lake in the United States, created for the purpose of generating electricity. It is Lake Taneycomo in Taney county.

Missouri has more miles of navigable rivers than any other state.

St. Louis was founded because of the fur trade, has been the center of the fur trade in America since 1820 and is the greatest fur trading market in the world today.

Jackson county, Missouri, is the Herefordshire of America and has more Herefords of superior merit than any other county in the world.

Missouri is the only state in which commercial cotton is picked and storage ice put up on the same day.

Missouri poultry brings more than half as much wealth each year as is taken from all the gold mines of the United States.

Gentry County, Missouri, grows more blue grass and blue grass seed than any other county in the whole world.

Missouri was the birthplace of the world's greatest and justly celebrated saddle horse, Rex McDonald.

Missouri is first in quality and

M. U. Pistol Team Wins Cup

Columbia, Mo., July 25.—Word has been received here that the pistol team representing the University of Missouri unit of the R. O. T. C. won the inter-collegiate pistol match held last week at the Field Artillery camp at Camp Knox, Ky. There were teams representing eighteen universities in the contest for the silver cup offered to the winning team. The Oregon team placed second, the team representing Texas U., third, and the Utah team placed fourth.

The forty-two Missouri men are in a battery of 180 men composed of R. O. T. C. units from Texas A. & M., Cornell University and the University of Missouri. According to a recent comparison of these universities, the Missouri unit ranks first in discipline, dismounted drill and in the appearance of quarters.

MARYVILLE ENTERTAINS CELEBRITIES OVER WEEKEND

M. U. Track Captain, Football Star and Cross Country Runner Are Unannounced Guests.

W. B. Parker, captain of the University of Missouri track team last year, was a visitor in Maryville Saturday and Sunday. He is a field man for William Woods College at Fulton and called on his parents here.

Parker will be remembered as Coach Henry F. Schulte's "find" four years ago. He was one of the fastest quarter milers in the Middle West when in the university and was elected track captain for his third year on the team. His home is in Kansas City. He was recently offered a position as assistant supervisor of athletics in the Kansas City schools, and probably will accept.

Harold Puckett, another member of the Tiger track squad, was also in Maryville over the week end. He was the only man at the University who won a letter in track and cross country in the same year. His home is in Gower and he visited friends who are attending the State Teachers' College here.

Vern Hardin, also a star in athletics in the University, was here yesterday. For two years he has been one of the mainstays of the Tiger football eleven. He is spending the summer at his parents' home in Maitland.

DRY OFFICERS CONFISCATE \$50,000 CARGO OF LIQUOR

Arrest of 18 Men in Spectacular Raids May Solve Mystery of "Pirate Ship"

New Haven, Conn., July 25.—In the seizure of the auxiliary swordfishing sloop Jennie T. off North Port, N. Y., the confiscation of liquor valued at more than \$50,000 and the arrest of eighteen men in a spectacular raid Saturday, federal and city officials believe they have solved, partially, at least the mystery attached to the elusive "pirate ship," which has been sighted at various times off the New Jersey coast, near Montauk Point and in Long Island sound.

The authorities have not yet determined whether there was any direct connection between the Jennie T. and the British schooner Pocumoke, they said last night. The Pocumoke bound from Nassau, Bahama island, with a shipment of liquors consigned to Canadian ports, put into Atlantic City, a few days ago with her cargo missing. It was explained at the time that the liquor had been jettisoned at sea. The Jennie T. docked at Lighthouse Point an amusement resort at the eastern entrance of New Haven harbor, early today, laden to capacity with a valuable cargo of liquor, the marks on the cases and bottles indicating that it came from Bermuda and the West Indies.

In the opinion of the federal prohibition enforcement officials, the Jennie T. received her freight from a larger craft somewhere off the Long Island shore, probably just outside the three-mile limit. The Jennie T. they point out, is too small a vessel to make a voyage from either Bermuda or the Bahamas with as heavy freight as, the raiding party found on board this morning.

Mrs. Ray Edwards and daughter, Sarah Elizabeth, are visiting in Omaha, Neb.

D. E. Hotchkin has gone to Kansas City on a several day's business trip.

THIEVES TAKE BUICK CAR PARKED IN BARNARD STREET

Hit Buggy as They Make Their Escape and are Seen Later in Maitland.

A 1920 model Buick touring car belonging to J. R. Hubbell of Barnard was stolen from the street in Barnard last Saturday night. Later in the evening the car was seen in Maitland. It was being driven by a young man who was described as tall and slender. He was accompanied by another young man who was short and heavy set.

The officers think that perhaps this is the first car that these young men had stolen as they seemed to be inexperienced drivers. The motor number was 306,318 and the license number was 107,313.

The thieves hit a buggy driven by Francis Ritchey just after crossing the river when they left Barnard. They did not stop, but Ritchey was picked up by Paul Campbell and together they overtook the youths in the car. The latter stopped when the other car caught them. They said they lived a mile from Maryville on the state road, were anxious to get home and would settle for the damage in the morning. Ritchey and Campbell took the number of the car, only to find later that it had been stolen from Hubbell.

Big Crowd Sees Ravenwood Lose 8-2, and Parnell, 5-4—Hopkins Next Sunday

By winning from both Ravenwood and Parnell, Sheridan won the one-day baseball tournament played at Parnell yesterday and attended by the largest crowd ever in the Parnell ball park. Sheridan defeated Ravenwood, 8 to 2, and Parnell 5 to 4.

Turner Rusco and Joe Rusco were the winning battery in the first game, with Ross doing twirling duty for Ravenwood and Bishop and Beedle behind the bat.

Rusco tried the iron man stunt in the second game but weakened after four innings and was replaced by Stephens of Grant City. Lefty Cooper was in the box for Parnell, with Harley on the receiving end. Lewis of Gentry umpired both games. Several running catches in left field by Caldwell of Sheridan furnished the fielding feature of the game.

Gate receipts for the double attraction amounted to \$200.

Ray Baublits has a money making machine. He never wants for money. When he gets short on change he simply pulls a little machine out of his shirt bosom, put in a piece of paper the size of a one, five, ten or twenty dollar bill, inserts it in a slot, gives it a turn or two and out comes the real cash. Ray has been working on this machine for the last ten years and now has it almost to perfection.

Mr. and Mrs. George Spargur returned Friday from Loveland, Colorado, where they had been for several months visiting relatives and friends. There is a lot of complaint about the rough roads leading into Maryville over the regular Saints Trail and if some work is not done, travel that way will become noticeably less. Wonder what's the matter with Maryville anyway. The turn at the Burlington depot is as mean and as dangerous a turn as there is in the country and it could be fixed by the expenditure of a few dollars. Seems to us the secretary of the Commercial Club down there should bring this matter to the attention of the proper ones.

John Bays, wife and daughter Josephine, and Miss Nell Faye Coffin, of Shawnee, Oklahoma, were Thursday evening supper guests of Mr. and Mrs. H. S. Goodrich. Miss Coffin left Saturday for her home where on Sunday at six p. m. at the First M. E. church she was united in marriage to Mr. J. H. Allison, Jr., a prominent young business man of Ardmore, Oklahoma. Mr. Allison is an ex-serviceman, having served in the world war over seas. Mrs. Allison before her marriage was supervisor of music in the schools of Shawnee and has many friends in and near Hopkins who will deem it a pleasure to extend congratulations. After a short wedding trip Mr. and Mrs. Allison will be at home in Ardmore.

John Anderson, wife and daughter Cecil, arrived home last week from Carpenter, Wyo., where they had been visiting in the home of their daughter, Mrs. Fay Glass. The distance is 700 miles and the trip both ways was made in their car, it requiring four days to go and the same number of days to return. They experienced no trouble going or coming but after reaching Carpenter, John had a little bad luck, a pony he was riding trying to turn a somersault, resulting in a broken rib for the rider. John is not overly in love with the wild and woolly west—says wheat will not average over 5 bushels to the acre and the corn will be short if there is not more rain, the crop needing it badly.

He fed the hog until Tuesday when he sold it to Dwight Hopple, weighing it on the same scales he took it in over, and the hog had shrunk just twenty pounds, losing Joe \$1.80 besides the feed the porker consumed.

A. C. Bubart, the north side farmer, has a collection of coins at the Farmers and Merchants Bank in this city that is attracting considerable attention. The collection is composed of pennies and half pennies dating from 1700 to the present time, pennies and half pennies of each issue during the intervening years. He has not a few that would sell for big money to collectors of rare coins but he prefers to keep them for his own satisfaction.
